

# LITTLE HALSTOCK

Sofas, Chairs and Soft Furnishings.

We provide unique, high-quality handmade sofas and chairs combining all that you would expect from a design house, with attention to detail and craftsmanship.

We listen carefully to our clients so that the pieces we create for them reflect their personality and lifestyle and are tailored to their budget.

Evolving from ideas, drawings, and conversations our clients receive a custom-made piece of furniture to their exact requirements.

Our highly skilled and efficient team uses both modern and traditional methods to produce anything from contemporary chic to classic traditional elegant pieces. Our knowledge and ability allow us to retain our keen attention to detail no matter the scale of the piece.

The frame workshop uses sustainably sourced hardwood timbers which ensures a lifetime of use. All our frames are handmade and are assembled in-house.

We can make sofas, chairs, sofa beds, ottomans, headboards, banquettes, and stools. Additionally, we can recover and restore a favourite piece you may already have, and we also offer a loose cover-making service.

There is a choice of cushion fillings from traditional feather down to modern substrates allowing for exterior and marine use. Because we know it is sometimes confusing selecting the right fabric, our knowledgeable team is on hand to help in choosing and ordering suitable fabrics.
